San Antonio

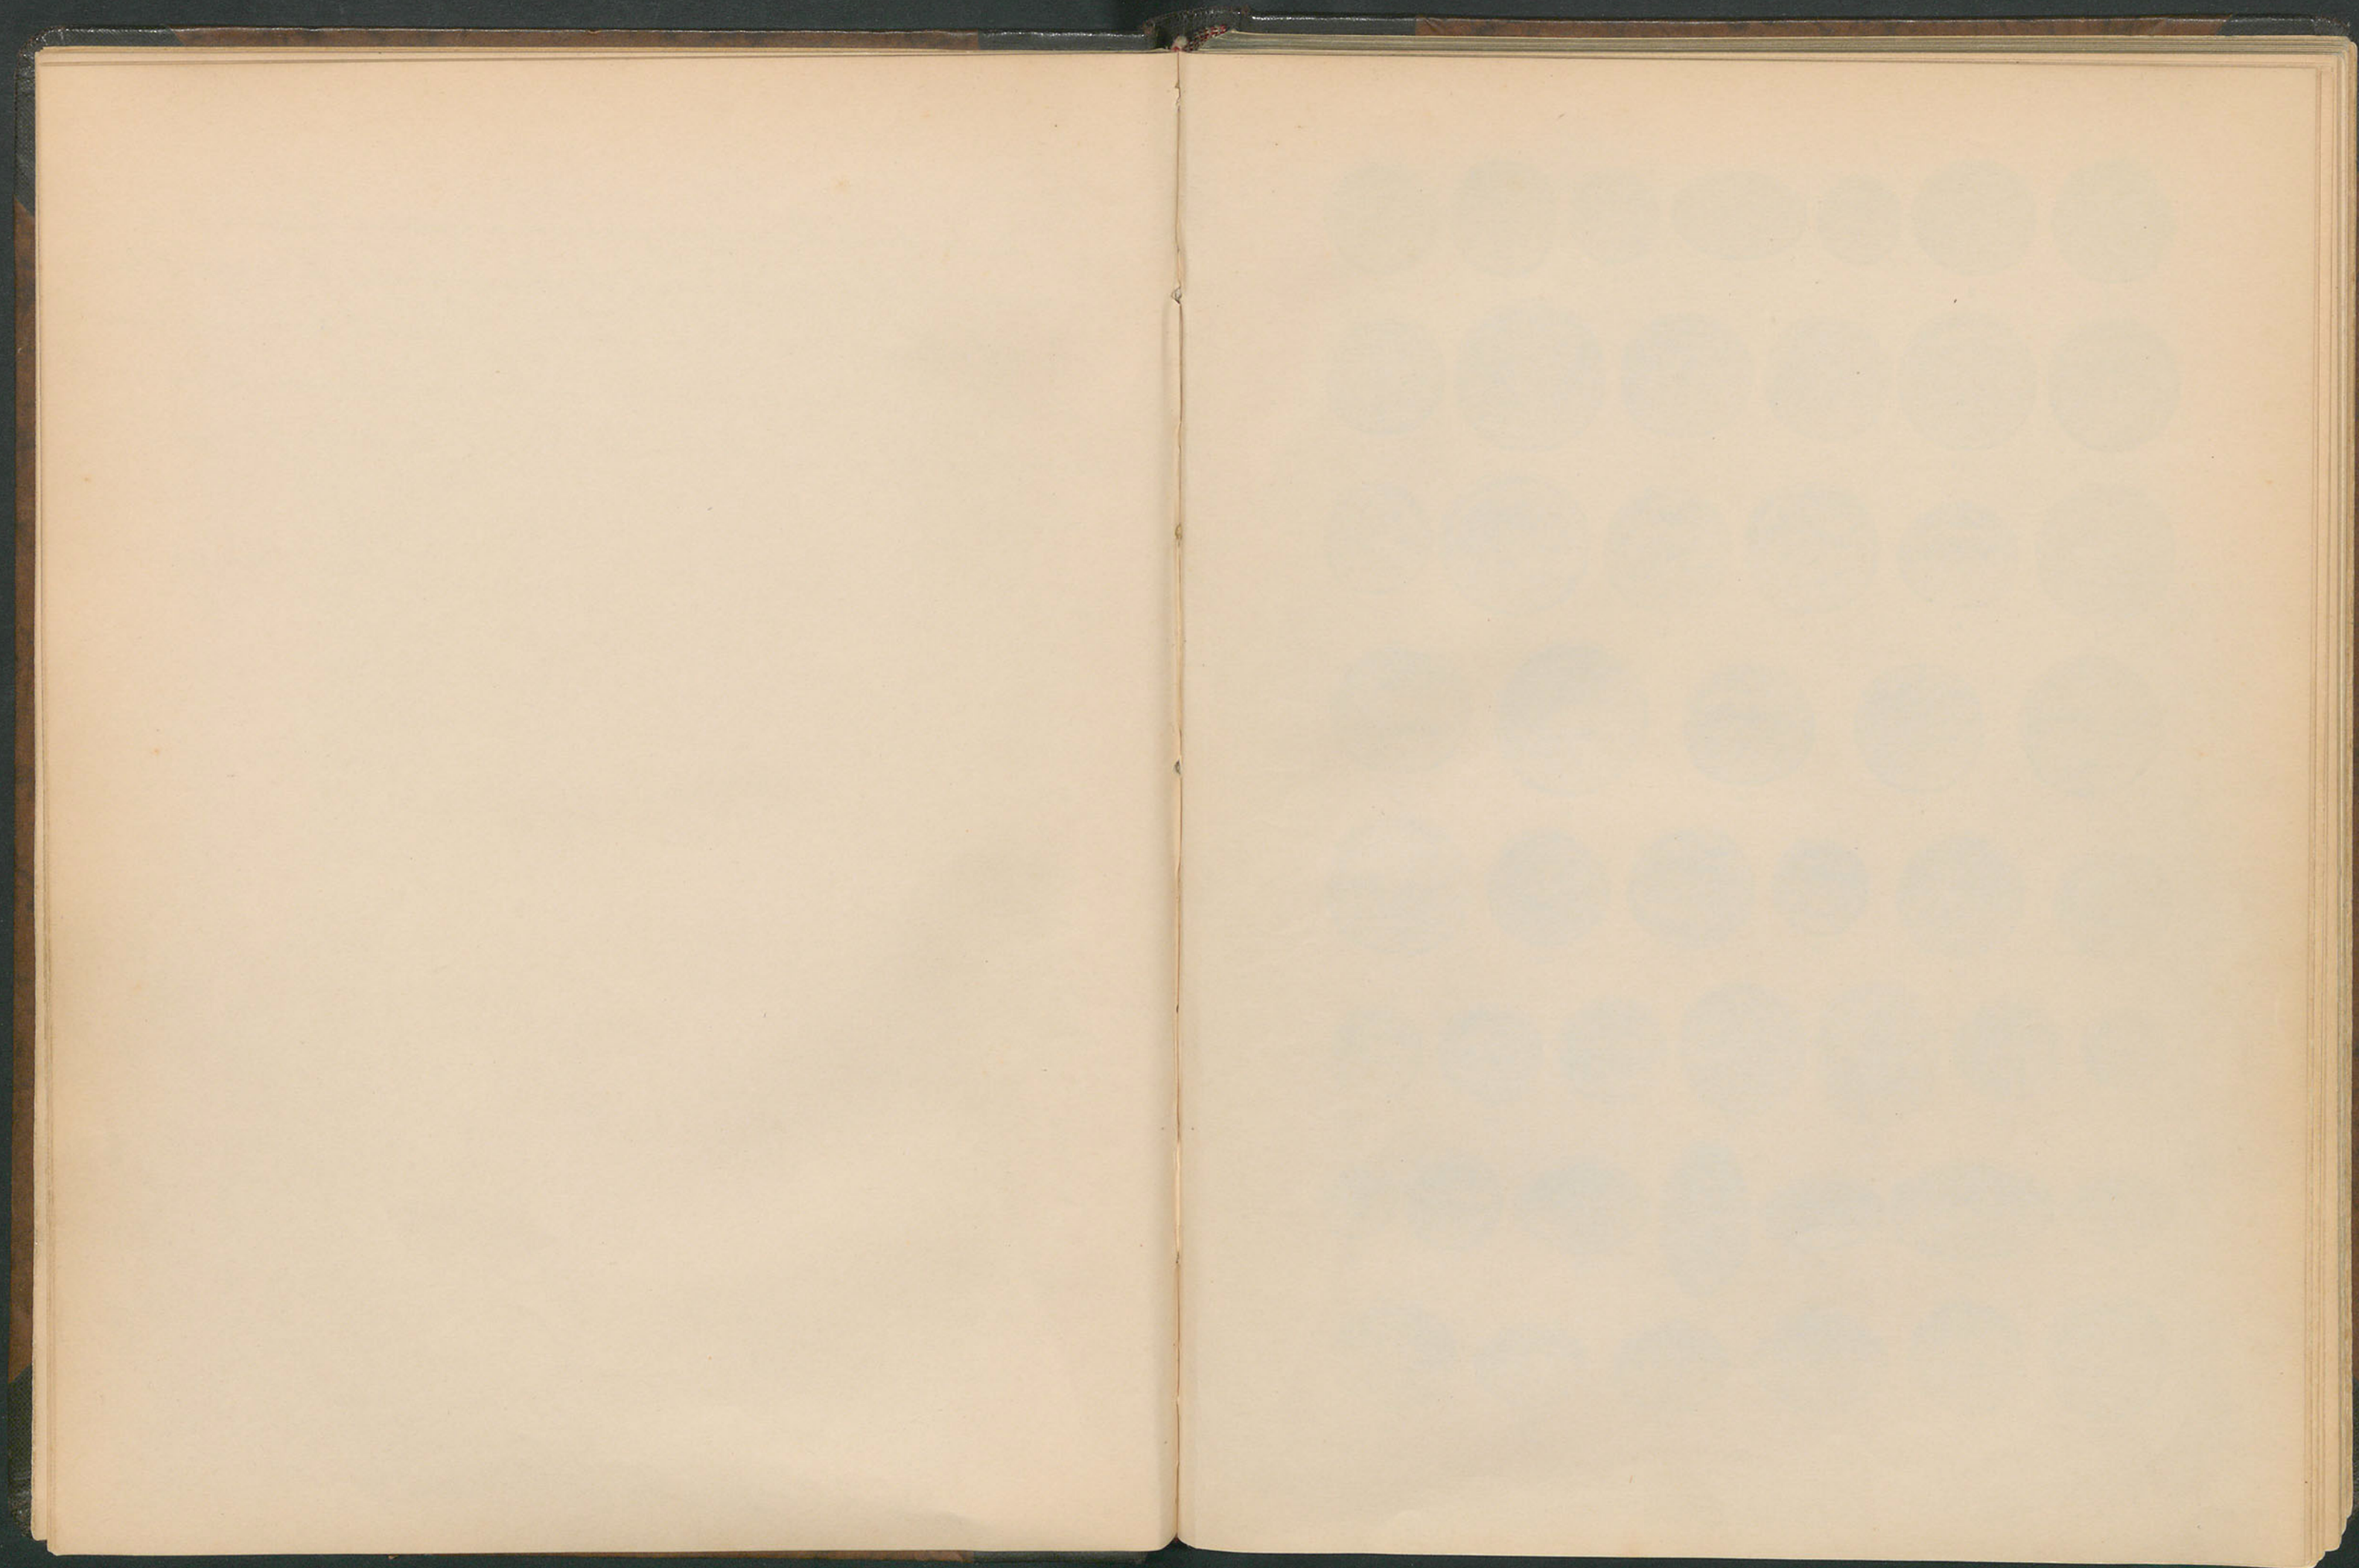

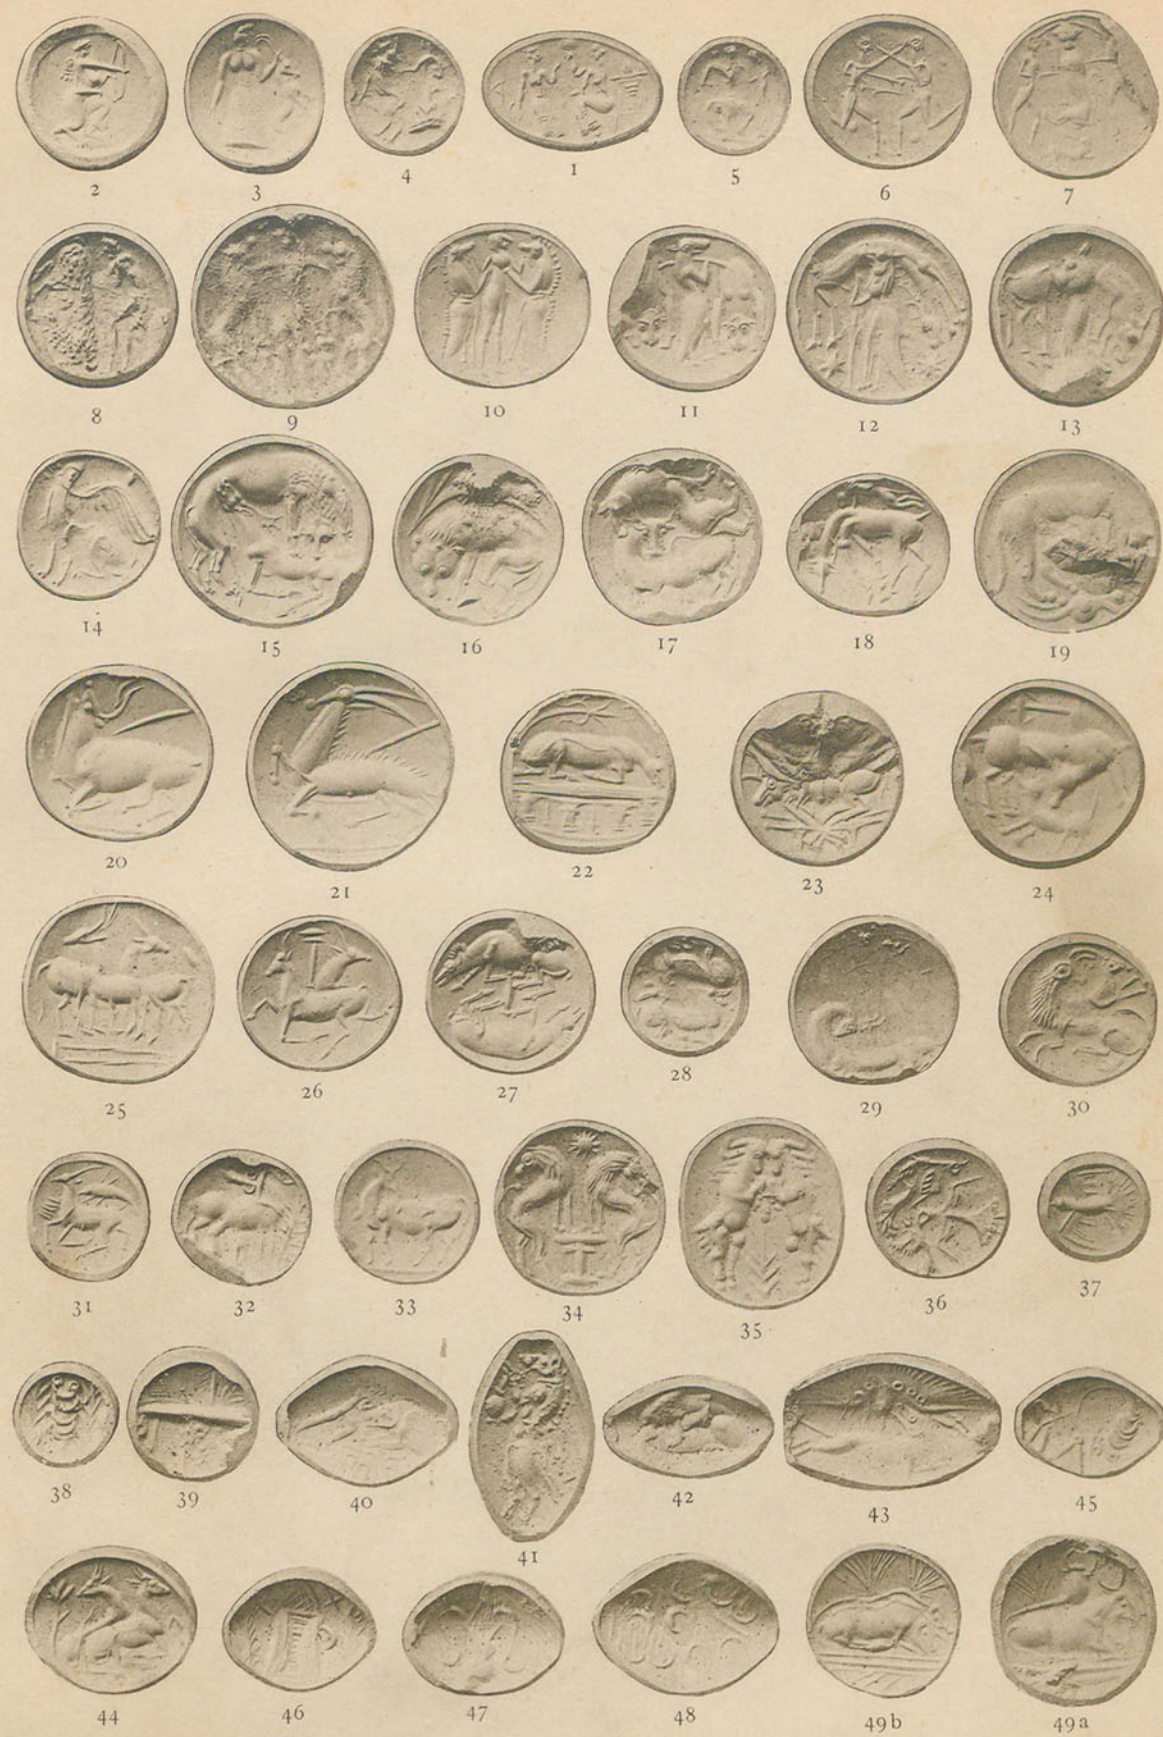

Zu no. 50

Der Stein ist an der St. einen Spikes gehoben; von dem abgehobenen Stückchen ist das eine wieder
angewendet, das andere fehlende durch einen modernen Steinplatten ergänzt worden. Der angelegte Abdruck zeigt
den Stein noch völlig intakt, dagegen ist auf der Abbildung Taf. II, 50 b die Verletzung bereits vorhanden.
Es folgt daraus, dass die Zerstörung zwischen Beginn der Neuordnung der Gemmenansammlung und dem Ab-
schluss des Gemmen Katalogs erfolgt ist. Der intakte Abguss ist von dem damaligen Galeriedirektor T. A. Krau-
se hergestellt.

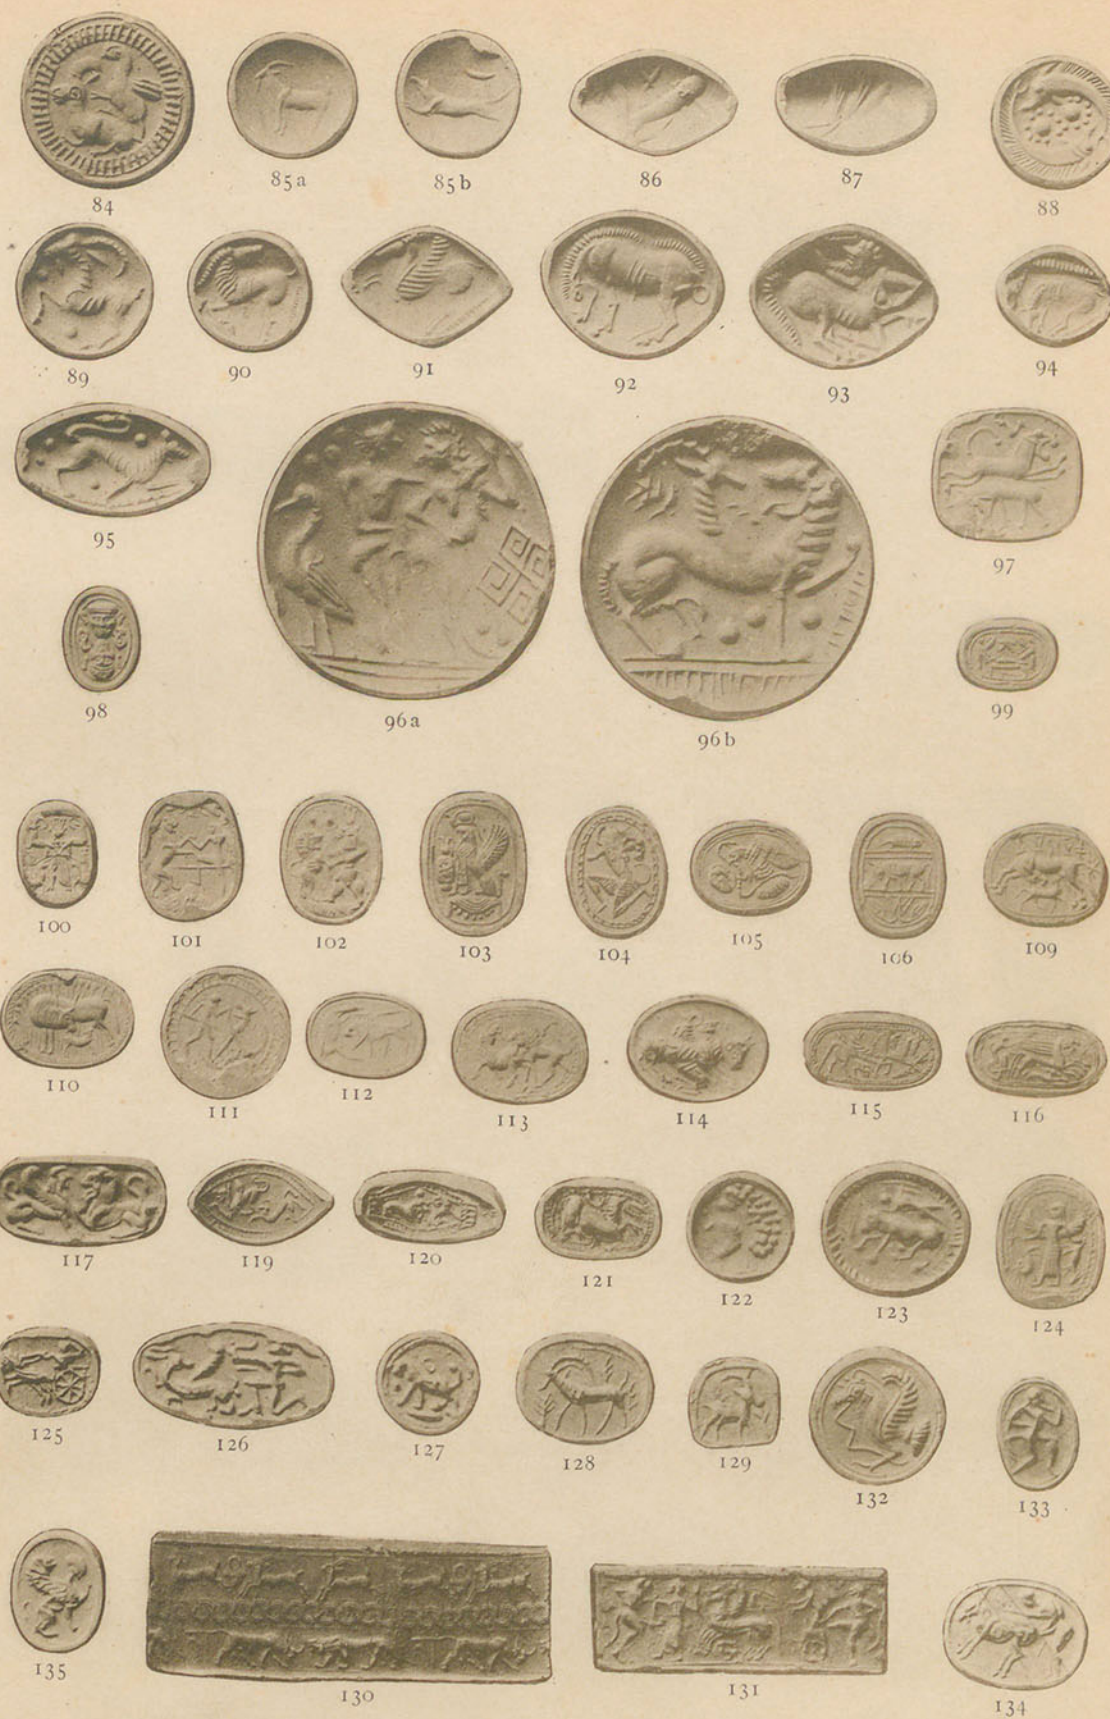

Pernice 17. Jan 1902.

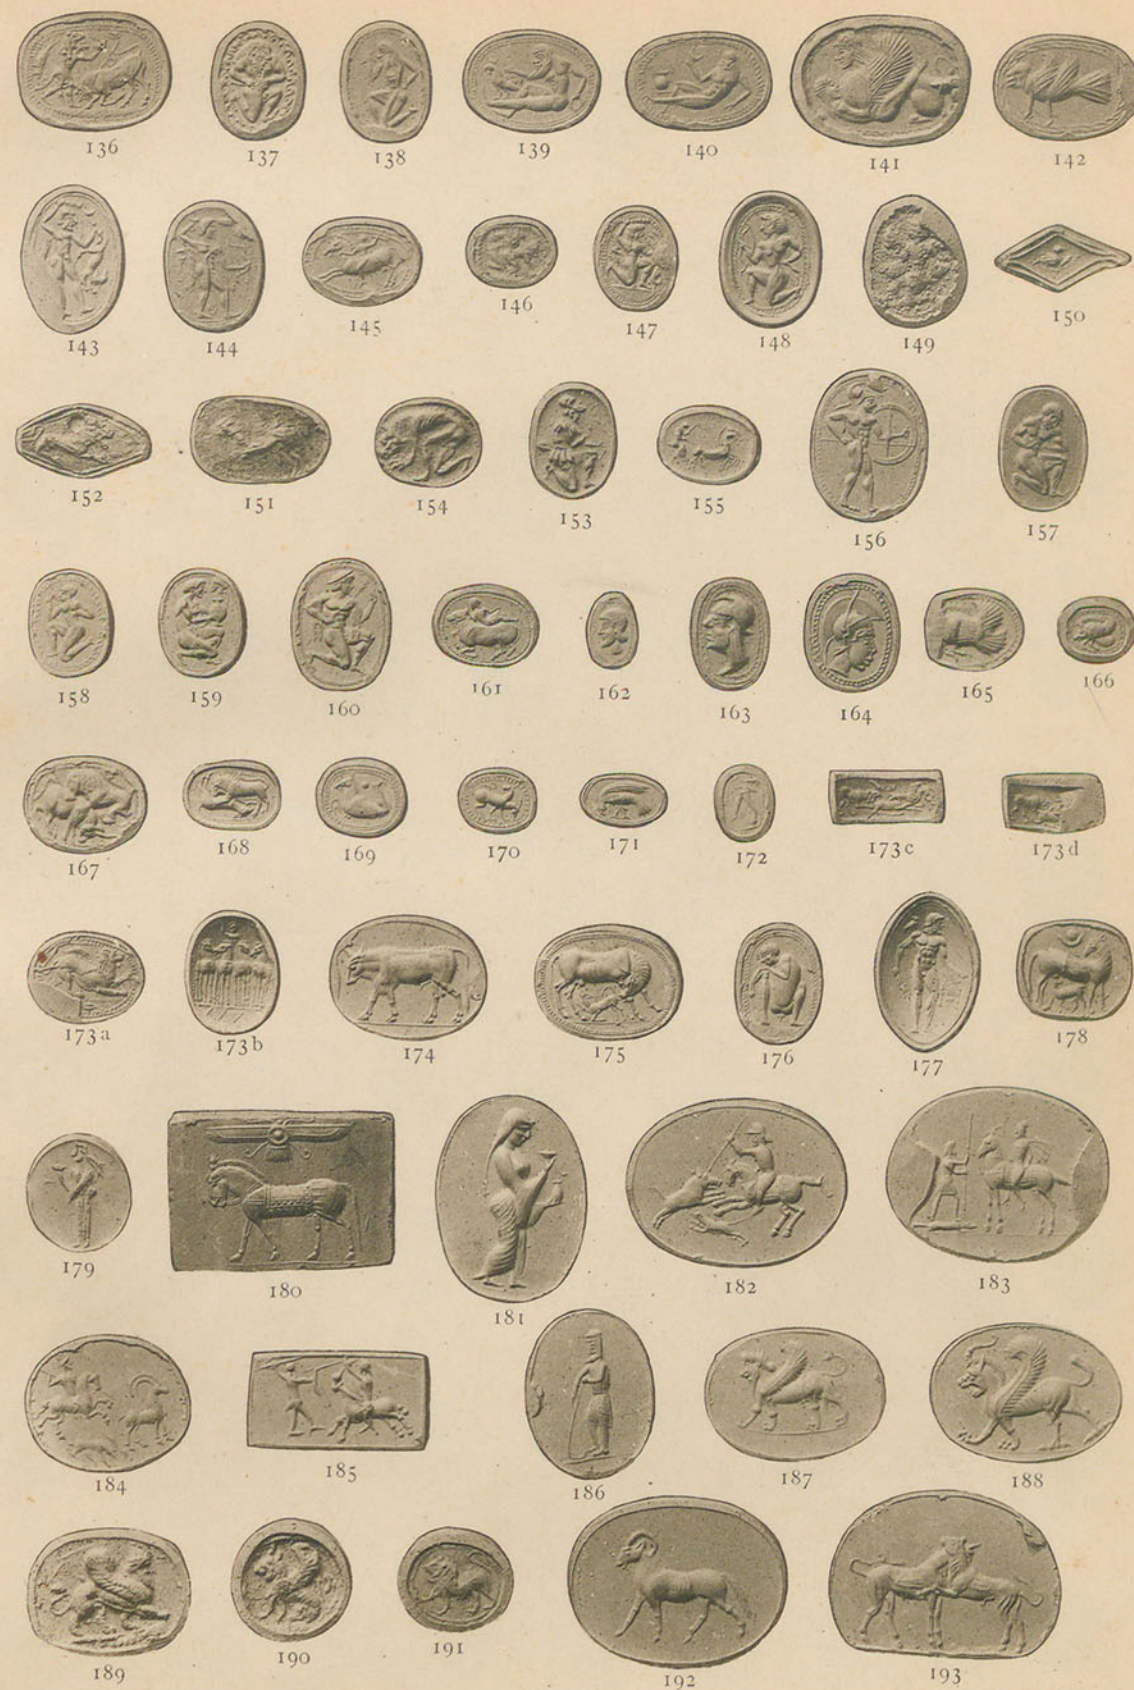

[Faint, illegible handwriting, likely bleed-through from the reverse side of the page.]
